The clerks were kept busy from early morning till late at night and many customers waited for hours until they were waited upon. Eight salesmen were kept busy during the entire day. If you have anything to sell, advertise it and you will have no trouble in finding a buyer.

—Hon. Jerry Simpson and family arrived home last Friday. His health, generally speaking, is better than it was last fall and a few months' rest together with our healthful climate will bring him back to his old-time strength and vigor. Mrs. Simpson and son, Lester, are enjoying excellent health, the latter having elongated into macho since he has seen his young friends here. His handsome features are also commensurately increased and the young ladies and ladies of our little burg are all trying a hand at catching the junior congressman. Jerry thinks the outlook for 1905 is encouraging and is confident that our party will sweep the country two years hence. This is not an opinion formed out of partisan prejudice, but a state of facts found by conversing with men of all parties. The people are awakening to a necessity and an emergency and party name is no longer a source of inspiration to them; they are beginning to realize that the new party is all that will rescue the nation from the clutches of the bondholders and foreign aristocracy. Mr. Simpson will reside on his farm east of town where he will devote himself to the agricultural and cattle industry until his services are again demanded by the common people to steer the ship of state into the arch of safety.

—Woodward News: Sam Nay came to town Tuesday and gave the following account of the shooting of Charley Parker in the north part of this county last Monday. Sheriff Lot R. Venscraft, of Clark county, Kansas, accompanied by Curly Bill and Sam Nay, were endeavoring to capture Charley Parker, who is accused of stealing cattle. Parker took shelter in the house of a man named Murphy and the officers surrounded the house and ordered him to surrender. He replied with a shot from his Winchester, which killed Curly Bill's horse. The officers returned the fire and the result is that Parker now lies wounded in the shoulder, though the wound is not considered dangerous....The report reached Woodward this week that Oliver P. Jewell, who was sent to the penitentiary at Lansing, Kansas, for safe keeping while awaiting a new trial, had been sent down in the coal shaft to work and that he had refused to work and also refused to come up out of the shaft, whereupon the warden ordered him brought up dead or alive, and that the guards beat him unmercifully before he would come up....Mrs. Thos. Duran and two children, Paul and Margaret, returned Sunday afternoon from Medicine Lodge, Kansas, where she went to attend the marriage of her brother and visit her mother-in-law, Mrs. Margaret Duran, who accompanied her home to spend a few weeks visiting her son in this city....Judge O'Brien has bought Mr. Oakes' improvements on the northeast quarter of section thirty, adjoining the townsite of East Woodward. This settled a contest of nearly a year's standing.

Mother and Child Dead.

The adage, that death is no respecter of persons, was again verified in this city during the past week. Mrs. Thos. Warwick and infant child died at their home in the northwest part of town—the child died last Wednesday and the mother Sunday evening. The child was only twenty-four hours old at the time of its death.

Mrs. Warwick was quite well from and after the birth of the child and her condition was not considered fatal at all until a short time before death; but a change was taken for the worse and at 7 o'clock Sunday evening the light of life faded away.

The funeral took place from the family residence, Monday afternoon at 2:30 p. m. Arch Deacon Brady of the Episcopal church officiating, and the remains interred in Highland cemetery. The deceased was 35 years, 3 months and 15 days of age and leaves 3 small boys and a husband to mourn her loss. Mr. and Mrs. Warwick resided in this country for the past eight years and were citizens of the highest worth and this untimely death is mourned by a host of kind friends. The motherless children and bereaved husband have the heartfelt sympathy of all.

Liquor Cases.

On last Wednesday evening Under Sheriff Matthews served warrants on O. L. Day, J. H. Minick, A. D. Cook and Henry Durst on the charge of violating the prohibitory amendment. They all gave bond for appearance at the next term of the district court which will be in May of this year. Numerous rumors are afloat as to the originator of the prosecutions but none come from reliable sources. Some accuse the W. C. T. U., others say it was done by parties out of purely spite for revenge, while others say that the county attorney was the sole author of the prosecution. Of course we know nothing of the facts in the case and are therefore unable to either deny or affirm any of these rumors. The different parties are arrested on from 6 to 22 counts most of which are alleged to have been committed in 1893. In this matter it is not our purpose to condemn or defend. It is the duty of the officers to enforce the law when complaint is made and so far as we have been able to learn the officers have only done their duty.

—State Journal: Kiowa has a newspaper called "The Bugle Blast." Kiowa seems to be such a wet town that even newspapers get on "toots."...A young woman of Medicine Lodge who advertises to press men's coats has her arms full of work all the time.

—A rain and wind storm visited this section of the country yesterday afternoon and lasted about seven hours. It was a mixture of rain, snow and sleet but the latter two elements melted immediately after falling to the ground. It was a bad evening on stock but it broadened the smile of the farmers perceptibly.

—Some time ago we published a local item stating that "Judge Funk had kissed the bride." This was wrong as the bride kissed the judge. We cheerfully make the correction as we do not wish to slander the judge or place him in a false light before the public. However, it was a kiss and makes very little difference either way.—Kiowa Review.

—"Here," says an exchange "is something that is worth \$5.00 to every farmer in the land to know: Sprinkle a little stone lime in your stock tank and not a particle of green scum will form on the water. When the lime loses its strength and scum begins to form, which may be twice during the season, wash out the tank and repeat the dose. It is cheap, not only harmless, but wholesome, keeps the water sweet and saves work.

—Gur. Schmidt is author for the statement that L. M. Pressnell and Judge Funk rode five miles north against the storm yesterday. In so far as L. M. is concerned we have no doubt in the least, but we will consider the matter before we credit the Judge with such a hazardous adventure. If the story is true, however, we would most particularly admonish those contemplating matrimony to put the date forward a few weeks at least, since the venerable Judge might not be in that cheerful frame of mind calculated to

The business manager of the Intelligencer spent last week at Medicine Lodge, Kansas. He found the people there very hopeful of better times. Many farmers have abandoned their farms to the mortgage companies, and have gone into the Strip to start anew to build up homes. While many people have left that part of the state, those who remain are confident of better times. There are three times as many cattle in that country now as were there a year ago. The few farmers who raise a surplus will have a home market for their corn and wheat. They have no fear but that they can raise cattle profitably. But few Lafayette county people are there now. Mrs. R. M. Sparks and her son, Guy, are living near town. Lail Sparks is running a livery barn. Henry Sparks is clerk of the district court. W. H. Worland passed the week with his family, Wednesday, with his family, on their way to the Strip. Taylor Nichols is yet there, and is farming and cattle raising. T. A. McClure is postmaster. One son and two daughters are with their parents; the others have married and gone elsewhere. Medicine Lodge does not seem near so much like home to a Lafayette county man as it once was.—Lexington (Mo.) Intelligencer.

The ninth grade have taken up the study of Orthography, instead of Grammar.

Miss Ella Beaver and Herbert Day were absent Tuesday from the High school.
Miss Sallie Collins returned to the High school after quite an absence. We welcome her back to her old place once more.

The Professor has been testing the geometrical knowledge of the senior grade. They stood the test although it was severe.

Miss Taber is talking of forming a debating society in her room. This will be another good step. "Let the good work go on."

The morning exercises Monday were rendered very interesting by a vocal solo by Mary Rich. Stella Lebrecht played the accompaniment.

The Grammar room spent last Friday afternoon in drawing a relief map of South America. The one drawn by Carrie Gibson took first prize.

For the last month the pupils of the Grammar room have worn long faces on account of several being tardy and as a consequence, lose the quarter holiday on those pleasant Friday afternoons.

There was quite a disturbance in the Grammar room the other day. A certain young lady threw a piece of paper to one of the young gentlemen and the teacher, supposing it to be a note, called him to task about it; but he would not give up the paper and the problem was solved to the satisfaction of the teacher. For further information call at the Central Holmes House.

Teachers having pupils in their schools wishing to take the examination are requested to send their names to me at once. F. M. SHELL, Co. Supt.

Good News.

In Monday's mail I got a draft for 10.35 from Warren, Pa., from the auxiliary of the Y. M. C. A. for the benefit of our needy. I hastened to Mr. Harmon's and purchased the full amount in dry goods. I got a bolt of goods for boys' pants and 95 yards of dress goods 17 pairs of stockings, 7 pairs of shoes, 6 spools of thread, 3 papers of needles. Many seeing and hearing of the out lay I have made of the money sent me to invest for my Master's poor have been surprised at the quantity for the money. The explanation is this: God will multiply and bless his own work. Let Kansas people note this. Christians are the only ones putting forth an effort to relieve them. Praise God from whom all blessings flow.

The dance given by Mr. Davis of Hardtner last Friday evening proved to be the most successful of the season. Over 55 numbers were taken and the young folks very reluctantly started home as the sun came up over the eastern horizon.

Preparations are being made for an exhibition on the evening of the last of the Lone Star school March 29. All are invited to attend.

The farmers are all at work getting ground ready for the early crops.
